

Audi e-tron Future Value Guarantee full terms & conditions

Audi Future Value Guarantee offer applies to Audi e-tron (50, 55, 55 advanced and the Sportback models) registered from 1 October 2020. The offer runs from 1 October 2020 to 31 December 2020 or while stocks last and is not available in conjunction with any other offer.

How the Audi Future Value Guarantee works

- Select your e-tron model.
- Choose your kilometre allowance over a 36-month term from the list below (under the heading “GFV/Final Payment”).
- You enter into a Credit Agreement with Audi Finance over 36 months (term) with 35 equal monthly payments and a final payment representing the Guaranteed Future Value (GFV) which Audi Finance works out depending on the kms you have chosen.
- Audi Finance gives you a GFV Certificate which sets out your end of term options (see below).

Your end of term options for the Audi Future Value Guarantee

At the end of the term of your Credit Agreement, you have the following options:

1. Trade-in on a new Audi

Simply trade-in your Audi e-tron (with an Audi Finance approved dealer) for a new Audi and if the trade-in value is higher than the GFV, the difference is yours to apply to that new Audi.

2. Return it

You may wish to return your Audi e-tron, for example, if the value of your Audi e-tron has fallen below the GFV. Audi Finance will apply the GFV to what you owe under the Credit Agreement leaving you with no further liability (provided you have satisfied the terms and conditions in the Credit Agreement and the GFV certificate).

3. Keep it

Keep your Audi e-tron by paying Audi Finance what you owe under the Credit Agreement or refinance that amount with Audi Finance (subject to its lending & credit criteria).

Other important things about the Audi Future Value Guarantee (AFVG)

- Your AFVG options above are subject to the terms in your Credit Agreement and GFV Certificate.
- The GFV is not a representation by Audi Finance as to the likely market value of your Audi at the end of the term.
- If you exceed the kilometre allowance you must pay Audi Finance the excess kilometre fee set out in the GFV Certificate.
- If at the end of the term, your Audi is not in very good condition and repair, you must pay the costs to bring the Audi to very good condition and repair (fair, wear and tear excepted).

Other things

- Offer is only available through Audi Finance and is subject to its lending & credit criteria. Audi Finance is an operating division of European Financial Services Limited.
- A \$275 establishment fee and \$8 security registration fee applies.
- When considering the finance option, Audi Finance recommends that you seek independent financial/legal advice based on your individual circumstances.
